MEMORANDUM FOR: Associate Deputy Director for Military Affairs, DO

FROM:

Director of Research and Development, DS&T

SUBJECT: Request For Military Liaison Support

1. We have been tasked by Congress to transfer to CIA a sensitive program currently underway at DIA. In accordance with Congressional direction, it also is necessary to conduct a retrospective evaluation of this program. Five years ago the Army Research Institute (ARI) tasked the National Research Council (NRC) to conduct a program evaluation on one of its own programs. This Army program involved "new age" training techniques directed at enhancing human performance. During review of the Army program, NRC considered some of the core issues we are likely to encounter in evaluating the DIA program.

2. We would like to contact ARI in order to determine the success of the NRC program evaluation and to gain better insight as to how to conduct our own review. We would also like to know if ARI further pursued its training program and what results might have been obtained. In addition, it might be useful to seek participation by appropriate personnel at ARI in the review of the DIA program. The original requester of the 1985 ARI study was Edgar M. Johnson, Technical Director of ARI. George Lawrence served as the ARI liaison to the NRC Committee on Techniques for the Enhancement of Human Performance. We would like to contact these two individuals directly.
